Choose Your Jason Hydrotherapy

The benefits of hydrotherapy are an integral part of healthier living. Jason's engineers and designers have developed a variety of stylish baths to deliver every facet of the therapeutic bathing experience.

S Soaking
Optimal submergence into warm, calming water held within a spacious and comfortable bathing well.

M MicroSilk®
Billions of microbubbles increase dissolved oxygen levels by up to 70 percent higher than common tap water and provide a gentle effervescent sensation. They naturally moisturize while gently lifting impurities from the skin's pores.

A AirMasseur®
Millions of warm air bubbles enter the bath through strategically spaced air jets in the lower sidewall of the bath, offering a choice of continuous, wave or pulse massage.

W Whirlpool
Fully adjustable and directional jets focus streams of pressurized air and water, transferring energy deep into muscle tissue to relieve stress and soreness.
