
Jason Jetted Neck Pillow for Standard and Signature Edition Whirlpool and Air-Whirlpool Baths

Jason's Jetted Neck Pillow adds more pleasure to your whirlpool experience by providing strategically placed neck hydrotherapy.

Available as a factory installed option on Jason Standard and Signature Edition Whirlpool and Air-Whirlpool baths, the contoured foam pillow is snapped into place above the bath's water line and fully supports your head and neck while two pulsating jets recirculate water from the bathing well to provide a gentle massage.

The electronic control is placed within easy reach, allowing the bather to select dual or alternating pulsating massage.

The Lycra® pillow covering can be easily removed for cleaning.

Constructed of waterproof and mildew resistant materials, the jetted neck pillow is offered in black or white.

STANDARD FEATURES

- Ergonomically placed control console to facilitate use by the bather.
- Bather selects from dual or alternate pulsating massage.
- The control system is completely factory assembled and tested on each Whirlpool and Air-Whirlpool bath.
- Available as a factory-installed option on all Jason Whirlpool and Air-Whirlpool models.
- Pillow offered in black and white utilizes two sockets to securely hold it in place.
- Lycra™ pillow cover is easily removed for cleaning.
- System drains completely when not in use.
- Pillow and pillow cover are field replaceable.
- Plated metal control console trim ring.
- Waterproof and mildew resistant.

SPECIFICATIONS

Pillow must be installed on the pump end of the bath.

On CS600 and SV640 models, the pillow must be installed on the suction side of the bath.

Installation limited to one pillow per bath (except LS640).
